B. To be completed by the department:

1. Please provide a summary of the purpose of this legislation (Justification Statement).

The purpose of this legislation is to make the intersection of N. Pelham Road, N.E. and E. Rock Springs Road, N.E. an all-way stop as an interim measure and replace it with a traffic signal when funds are identified through the Safe Routes to School Program.

2. Please provide background information regarding this legislation.

At the request of the Morningside Neighborhood, a traffic study was conducted to assess the feasibility of installing a traffic signal or all-way stop. This intersection met signal and all-way stop warrants. The preferred traffic control measure at the intersection is a traffic signal due to heavy traffic volume from all approaches. However, per Manual Uniform Traffic Control Devices which is a standard utilized, an all-way stop could be utilized as a interim measure. Office of Transportation recommends that an all-way stop be installed until such time that funding for a traffic signal can be identified. We are anticipating funds for a signal at this location as part of Safe Routes to School program at a later date.
